Up to 30 different scratch tickets with the push of a button

WinStation30 is the first vending machine in the Lottery Industry to dispense up to 30 different instant scratch tickets and online lottery games, with just a simple push of a button. Equipped with a 10.1" touch screen, it provides players with the opportunity to digitally prepare their own playslips for online games, fast play and draw-based games, thus allowing digitalized game play and introducing a modernized gaming experience in the traditional retail environment. Additionally, its big embedded monitor displays any kind of multimedia content and digital signage, attracting passing-by customers and enriching the retail gaming experience.
