INTRALOT Chairman & CEO Sokratis P. Kokkalis, noted:

“INTRALOT’s 2022 Financial Year results reflect robust performance and continuous improvements in all key financial indicators as the company delivered on its main business goals and as a result of intense efforts for capital structure optimization and management reorganization to boost growth and efficiencies. Furthermore, during 2022, we successfully completed a €129m share capital increase at parent level that attracted US based fund Standard General as strategic investor while the proceeds were mostly used to regain control of 100% of Intralot, Inc., our US subsidiary. In parallel we repaid the US-issued 2025 PIK Toggle Notes by use of a mix of a new \$230m Term Loan from a Consortium of US banks and company’s cash and secured a new revolving credit facility of \$50m. In the light of our significantly improved position, we look forward to tapping new growth opportunities in the US and the rest of the world as one of the top gaming technology providers worldwide and working towards refinancing the 2024 Notes.”
